

Department of Astronomy
Thesis Advisory Committee Report

1. Name of Student: _____ Mtg. Date: _____

Mtg. Number: _____

2. Committee Members: _____

Committee chair: _____

Thesis supervisor: _____

3. Thesis subject: _____

4. Describe the degree of definition and the scope of this thesis. What are the scientific objectives? What is the intellectual content?

5. Estimated completion date: _____

6. Progress since last meeting:

7. Problems since last meeting:

8. Papers and conferences:

_____ Number of papers published so far in grad school for which student is an author

_____ Number of those papers for which student is first author

_____ Number of conferences attended by student during grad school

_____ Number of posters student has presented

_____ Number of talks the student has given

9. Public Outreach Project

_____ This student will be required to complete Astronomy 310

Short description of likely project:

10. General evaluation and recommendations:

Signature:

Print Last Name:

11. Student has discussed TAC form with TAC chair: _____
(Signature of Student)
